

GRANVILLE HOUSE MEDICAL CENTRE - SHARED INFORMATION

There are 2 different reasons why your information may leave the practice. These are independent of each other and need recording differently on our system. To ensure we record your wishes correctly please complete and return this form. Please complete one form for each person who wishes to opt out of sharing their information.

SUMMARY CARE RECORD

This is a summary of clinical information deemed useful in the event of emergency care. Certain information held by us (currently medication and allergies) is shared with other health care professionals who may look after you (hospitals, out of hours services etc.). This is done to help assist with patient care.

HSCIC (Health and Social Care Information Centre)

Family history, vaccinations, diagnoses, referral, biological values (blood pressures, BMI, cholesterol results etc.), all NHS prescriptions along with personal identifiers such as date of birth, postcode, NHS number and gender are extracted from our system and used to analyse patient care, improve healthcare, advance customer services and increase accountability. Once collected by the HSCIC your data may then be sent on to other accredited third parties. You can choose whether to opt out of one or both of these.

You can find further information about this on the following websites -

Summary care Record www.nhscarerecords.nhs.uk

HSCIC www.nhs.uk/caredata

Please indicate which you would like to opt out of -
