

How to be involved.....

It's not all business.....

It is anticipated that the '*Friends of Plowright - Patient Participation Group*' could also become involved in:

Creating various displays within the Practice waiting rooms

By fund raising which helps with the provision of equipment and services, not provided by the NHS, for the benefit of the patients at the Plowright Surgery— ie coffee mornings, ongoing book sales.

We would welcome any articles which can be included in future newsletters/ magazines—please email these to plowright.medicalcentre.co.uk using PPG as the subject.

We hope that all interaction with the Practice should be a pleasure, we would appreciate your support in helping to ensure that this aim continues to be reality, acting as a conduit for good communication between the Practice and the community.

Welcome

Activities of the 'Friends of Plowright—PPG'

Looking after the community by drawing attention to the strengths and weaknesses in the provision of healthcare in our local area.

Caring for patients by arranging talks on health matters of interest to all sections of the community.

Looking after the Practice by providing feedback to, and exchanging views with, the medical and non-medical partners and staff attached to the Practice, both at Swaffham and Necton.

By helping the Practice to appreciate and understand what patients are thinking, including surveys and research to find out what matters to Patients.

Clarify, where possible, the mixed messages issued by the media on changes to NHS provision and general healthcare in both the local and wider areas.

Membership:

All patients and staff of Plowright Medical Centre are eligible to join. We operate a virtual group where we communicate using e-mail and/or post.

It costs nothing, but members have much to gain and/or contribute to the Practice.

The membership shouldn't be too onerous, but is intended to help the ongoing communication between the Practice and you—its patient..

The Practice welcomes the views, ideas and comments from the members, as these are invaluable in helping us to improve the services offered to our patients.
