

## **Travel Advice Form Cornerstone Practice (2019)**

As the needs of Cornerstone Practice expand and to meet the increasing demand for appointments we have had to revise the service we offer in regards to vaccines for travel.

Therefore we will now only be able to offer the following vaccines for travel:

### **TETANUS/DIPHTHERIA/POLIO, HEPATITIS A, TYPHOID**

If you think you will need vaccines or are unsure of your current vaccine status please fill in your Name, Date of Birth & Country/Countries visiting below.

**(Nursing staff will circle vaccines required)**

**It will take 1 week for the nurses to verify.**

**PLEASE NOTE: The surgery will need 6 weeks' notice before travel if vaccines are required; if this is not possible we advise you contact your local travel clinic to provide vaccines as soon as possible (details as below).**

**The surgery has the right to decline if 6 weeks' notice is not given.**

For more complex travel we strongly advise you consult your nearest Travel Clinic.
