Choice of GP Practice and Out of Area Registered Patients

From 5th January 2015, patients who reside outside Minchinhampton Surgery’s practice area may request to register. It is at the discretion of the Practice whether to accept a new patient as an out of area registered patient.

Minchinhampton Surgery will not provide home visits or other urgent care to the patient when outside the practice area and the patient cannot reasonably be expected to attend the practice. If such care is needed the patient would need to ring 111 for this to be organised.

The decision on whether to accept an out-of area registered patient will be based on the following considerations:

- Whether there are clinical conditions or care needs which mean registration without the ability to do home visits would compromise clinical care, and the patient’s needs would be better met through registration with a practice near to where they live
- There are practical reasons which mean the patient is unlikely to benefit from out of area registration with the practice e.g. the patient is not spending frequent periods of time in or near the practice area where they wish to register.

If you would like to apply to register as an Out of Area Registered Patient please sign below:

I would like to register as an ‘Out of Area Registered Patient’ at Minchinhampton Surgery. I understand Minchinhampton Surgery will not provide home visits or other urgent care to me when outside the practice area and I cannot reasonably be expected to attend the practice.
