

# Protect Your Child Against Serious Illnesses

Your child should receive all of the vaccines offered as they are important to protect against different types of diseases

## The benefits of immunisation

Protect your family and your community

The best way to protect your child from serious diseases

Refer to the red book for schedule of vaccinations

Diseases such as polio, rubella and measles have almost disappeared in the UK because so many people get immunised. When people aren't immunised, these diseases come back
