# Enjoy FREE appointment reminders

## from your GP practice and iPLATO Patient Care Messaging

The iPLATO Patient Care Messaging service enables your GP surgery to get in touch with you by sending text messages to your mobile phone.

## How can I use this service?

To take advantage of this **FREE** service, please text your **full name** and **date of birth** to the surgery number below:

Or give your mobile number to the receptionist, so that you can start to receive your appointment reminder a few days before your next appointment.

## What if I do not want to receive text messages?

Please contact your GP surgery, or reply to any text message we send you with '**Opt Out**.'.

Note: You will not be charged for any incoming messages from the GP surgery to your mobile phone. However, any replies that you send to the GP practice will be charged at your standard network rate. Your information will NOT be disclosed to any third party and will be used by your healthcare professional only.
