## Do I need to be registered at one of the four surgeries where the Hubs are based in order to use the service?

No, you can be registered with any GP in Walsall to access the extended hours GP service. Please note you will need to travel to one of the four Hubs (listed above).

## What if I'm not registered with a Walsall GP?

If you are not a registered patient with a Walsall GP you will not be able to access this service.

## When should I use the Hubs?

The extended service is for patients who require a routine or same day GP appointment, but are unable to attend during normal opening hours. Please note however, they are not walk-in centres and you will need to book an appointment which can be done up to 7 days in advance. Please note that both of Walsall's urgent care centres and its A&E department will still be open as normal for people to use in serious or life threatening emergencies.
