

3 Different NHS Data Sharing Initiatives in Camden

Initiative	Coverage	Can I be identified from the data?	Who can see my information?			Is my consent needed to view my record?*	What can be seen?	What is the purpose?	Can I opt out?
			Who can see my data?	The Public	May my data be shared with 3rd parties?				
CIDR Camden Integrated Digital Record	Local	✓	Health and social care professionals in Camden	✗	✗	✓	Whole record***	Better clinical care for you	✓
Summary Care Record	National	✓	Healthcare Professionals	✗	✗	✓	Allergies, reactions and medication only	Better clinical care for you	✓
Care.data	National	Not directly - the data is pseudonymised**	Healthcare Professionals including researchers and commissioners	✗	✓ You can opt out of the HSCIC supplying identifiable data to anyone (Health & Social Care Information Centre)	✗	Sub-set of care record; Statistical Information***	Public health use, audit, commissioning and research	✓ From use of identifiable data

*All of these projects follow the National Role Based Access rules which determine what level of information each Health and Social Care Professional can view

**Pseudonymisation means that the data contains identifiable data about you, but this is hidden from view by encryption

***Sensitive information sharing will be restricted

For more information about the projects please go to:
